Establishment - Peons - additional strength - certain ranges in Mangalore circle - proposals submitted.

I solicit a reference to paras 27 and 28 of the West Coast Asst. Commissioner's inspection Notes of Mangalore circle which was reviewed in C.P.D.No.583 Abk. dated 7-3-30 and in C.P.D.No.2298 Abk. dated 13-10-30, - the Commissioner has ordered that the question of redistribution of Mangalore and Udipi circles will be discussed at his next visit to the West Coast. The Assistant Commissioner West Coast Sub Dvn. has now submitted proposals for the increase in the strength of peons in some of the ranges in the Mangalore circle. The proposals for the increase suggested by the Asst. Commissioner are embodied in the tabular statement below:

Serial No.	Ranges	Present staff	Proposed increase		Remarks.
			By the A.C.		
1	Mangalore	0 ✓	+2		Note.- The Asst. Commr. has proposed increase in the Asst. Inspr.'s order- lies without noting the N proposed to be increased also the existing strengt

10	Moodabidri	6 ✓	+2		
11	Karkal	4	+2	+2	,,
12	Inspector Mangalore	5	+3	+1	
			+24	+7	

The reasons for the increase in the number of peons are given below

(i) I.D.crime is on the increase in the circle and the range - staff are very often handicapped for want of adequate number of peons

(2) Rich Bunts and Catholic landlords give the greatest trouble to the rading staff when cases are detected.

(3) There have been serious assaults (some instances are noted below):

(i) a Sub Inspector and a peon of Mangalore range were attacked with chopping knives by a husband and wife while detecting an I.D. case.

(ii) At Buntwal, the Sub Inspector and his men engaged in the - detection of a case were very grievously cut up. Two peons ~~were~~ very - narrowly escaped death and one suffered permanent injury.

(iii) In certain areas, summons have to be affixed to the walls under cover of a revolver as even females come out to fight with - chopping knives.

(iv) Recently the Sub Inspector Buntwal was brutally assaulted in the open street.

(v) The illicit distillers have the sympathy and support of the working classes and also wealthy landlords, lawyers and priests.

(vi) The greatest commotion prevails in the cashew season when almost every case is contested. There are counter complaints and - petitions about harassing by the Excise staff.

(vii) Even the richest people are addicted to I.D. and take - offence when the poor people whom they employ to distil arrack for - theme are booked.

2. The present staff is reported to be hardly adequate to the task of putting down I.D. in the ranges. In this connection, the No. of Inspector's orderlies is also proposed to be raised from 5 to 8 - 2 out of the existing 5 men are working permanently in the circle - office. The Inspector reports unless he himself takes a very active and prominent initiative in detection, the Sub Inspectors will take the line of least resistance and I.D. will increase. He states that he must be able to spring on the remote corners of the ranges for detection and keep the Sub Inspectors in trim without looking to the range staff for help.

3. It is also reported that the rich Bunts and Catholic land-lords have been conspicuously hostile to the attempts of this Department to put down I.D. and that their hatred and active antagonism to the working of the Excise staff have increased a hundredfold since the beginning of the Civil Disobedience movement and the Temperance Propaganda.

4. The Asst. Commissioner strongly recommends the increase in the number of peons in the ranges and Inspector's orderlies as noted in para 1 and in the No. of Asst. Inspector's orderlies also. The No. of orderlies now sanctioned for the Asst. Inspector has not been reported by the Asst. Commissioner. He is being requested to furnish the information direct to the Commissioner. I do not consider that any increase in the Asst. Inspector's orderlies is necessary. The proposals of the Asst. Commissioner involves the sanction of 24 additional peons. There is no use in having more than 6 peons in a range. The Commissioner has also remarked that he has no great faith in the multiplication of peons without increasing the No. of range officers. I would therefore recommend that, for the present, the strength of peons in all the ranges where it is now may be raised to 6, and the No. of Inspector's orderlies may also be raised from 5 to 6. On account of this recommendation, there will be an increase of only 7 peons (one) one for each of the four ranges, Buntwal, Suratkal, Moolky and Venoor and 2 for Karkal and one for the Inspector's orderly. I consider that the increase suggested by me is necessary for the efficient discharge of duties and may be sanctioned.

Revenue and detection statements are enclosed.

Sanction of an Asst. Inspector for the Udipi circle with the addition of Karkal taluk.

I submit herewith West Coast Assistant - Commissioner's reports ~~dated 5-2-31~~ D 572/31 dated 27-3-31 addressed to the Commissioner on the subject of forming a Sub - circle at Karkal.

2. If it is proposed to add the Karkal taluk to the Udipi circle and to sanction an Assistant Inspector for the circle, there does not seem to be any necessity to form a Sub Circle at Karkal with the Asst. Inspector in charge.

P.T.

3. Prior to the sanction of an Asst. Inspector for the Kaseragod circle and the redistribution of the - ranges in the 3 circles of the South Kanara District, the Udipi circle comprised the Udipi, Coondapur and Karkal taluks and the circle was being managed by the Inspector alone, without an Assistant Inspector, the post of Asst. Inspector having been abolished on the recommendation of the late Deputy Commissioner, Dewan Bahadur M.R.Ry. Venkatarama Ayyar Avl. I admit that the arrangement was not satisfactory and the circle suffered in consequence as the area was too extensive for an Inspector to look after without an Assistant.. If an Assistant Inspector is now sanctioned the Inspector and the Assistant can easily - manage the circle between them without the formation of a Sub circle, which only means additional expense in -

in having to rent an office and engage an additional clerk. I am therefore of opinion that the arrangement of posting an Assistant Inspector to the circle may be tried for a year and the effect of removing the Assistant Inspector from the Mangalore circle also can be watched. Mangalore is a very heavy - circle even with the removal of the Karkal taluk and difficulty may be experienced by the Inspector without an Assistant.

Sir,

Subject - Karakkal Taluk - South Kanara District - Sub Circle - formation - proposals - submitted.

With reference to my suggestion to the Commissioner that Karakkal Taluk of the Mangalore Circle should be formed into a sub circle and the Assistant Inspector in charge to take up Abkari, Fisheries etc., with an extra clerk, I submit the following statistics in respect of Karkal Taluk for Commissioner's reference. I understand that suitable buildings can be had at Karakkal for the Assistant Inspector and his office.

Detection figures since [illegible]. No. of shops existing since [illegible]. Excise revenue since [illegible].

Received 30-3-31.

The Inspector, Mangalore Circle says that he can manage the then Mangalore Circle, which will comprise only Mangalore Taluk, without the Assistant Inspector, provided Senior Sub Inspectors in the circle are allowed to conduct prosecution in cases, as suggested by him personally to the Commissioner which is being dealt with separately vide Commissioner's Memo 1563 Abkari dated 4-3-31. He will have, of course, the Special Assistant Inspector during the cashew season, as usual.

Establishment - redistribution of circles in the South Kanara Dist. - proposals - submitted -

THE

REFERENCE:-

The Commr. submits the following proposals for ~~a~~ redistribution of the jurisdiction of the Udipi ~~A.I.~~ and Mangalore circles of the S.Kanara Dist., with a view to afford relief to the Inspr., of the latter circle who is at present overworked and to ensure better supervision over excise matters in the Karkal taluk which is now attached to the Mangalore.

~~Prior~~ Up to 1st May 1928, the Udipi, Coondapur and Karkal taluks formed the Udipi circle, the Mangalore Taluk and a part of Uppanangady taluk the Mangalore circl and the rest of the Dist. the Kasargod circle. With a view to afford relief to the Inspr., Udipi circle who had no A.I to help him the Karkal taluk was transferred to the Mangalore circle and the

Experience of the last 3 years has shown that Mangalore circle with its 12 ranges is too heavy ~~in spite of~~ for the Inspr. even with ~~having~~ the help of a permanent A.I. and a tempy. A.I. during the cashew fruit season. ~~The local officers~~ have also reported that parts of the Karkal taluk which are closer to Udipi than to Mangalore do not receive adequate attention at the hands of superior ~~officers~~. There is ~~already~~ heavy I.D.crime in Mangalore circle especially in Mangalore taluk and ~~a good number of~~ many cases go to Court and are keenly contested. Mangalore taluk alone with its 8 ranges and heavy marking and I.D. &c., crime give enough work to the Inspr.

During his recent tour in S.Kanara Dt. the Commr., went into the question ~~of~~ and found that relief was essential to the Inspr., Mangalore circle by way of reducing his jurisdiction. He therefore proposes to transfer the Karkal taluk with the permanent A.I. and his orderlies from Mangalore back to the Udipi circle. This latter circle will then have 11 ranges and can be managed efficiently by the Inspr. with the help of the A.I. This arrangement will be worked as a temporary measure from 1-9-31 so as to cover next

half

half year's marking. The Commr., requests that Govt. may be pleased to approve of the proposal and to publish the accompanying notification defining the areas of the 2 circles.

~~The Commr. also found it necessary~~ to form an extra range in Karkal taluk and to strengthen the inferior staff in the Mangalore circle to some extent These can however wait for 1932-33 and will be proposed in ~~the~~ due course as part II Scheme.

The W. part of Mangalore Dt. provides a large amount of grave crime in the absence of motif of illicit arrack from Cochin point & other bases. The redistribution proposed is the best that can be done with the present est. It is likely that hereafter the necessity of strengthening the staff by the addition of one

On 1928 the A.C W. Coast Dn recommended that the strength of the marginally noted ranges might be increased by the additional peons noted against them. It was decided to address it but was subsequently dropped.

pref The A.C W. Coast has Dn now suggested that the strength of the Mangalore D may be increased by 24 peons. The D.C does not agree with him but recommends the addition of 7 peons alone as per distribution in the margin. If the DC recommendation is approved all the ranges of the circle get 6 peons.

The DC states that the A.C W Coa. Dn has recommended that the no of orderlies of the A.S may also be increased but has not reported the

no. of orderlies now sanctioned. The A.D. has got 5 orderlies now. The D.C. is not in favour of increasing the no. of orderlies of the Asst. Surgeon

The C has remarked that the question of redistributing the Mangalore and Kolipilicks will be discussed with the D.C when the C. tours in those parts. The question of increasing the staff also may be taken up and considered along with the question of redistribution and the Govt addressed to consider the scheme as Part I. Scheme for ~~1931-32~~ 1932-33

~~For orders~~ Orders on both the proposals may now be passed after personal inspection by the C. L as he will be touring in the Mangalore District circles from this month.

A.C. prefers the A.I. to be in independent charge of Karkal Tk. This will be thinks the best enough relief to the T. Tahsildar but to carry on with only the temporary Casteer A.I. I have told him to work out a suitable DC.

A.C. has been asked to examine the question of a Casteer Dispensary to supply a portion of Mangalore C, if there is not enough to supply the whole C

Refer Cs orders above.

The proposals of the D.C. may be accepted.

Note Contd.

Please see the letter from D.C. Si
at pp 12-13: Cf. The D.C is not in favour
of forming a sub circle for Markal Taluk
as proposed by the A.C.W. Coast Inspn. The D.C.
states that the A.S. Mangalore O may be transfer
to the Udipi O temporarily for a year and the
effect of the above may be watched. The
sanction the temp
Comm can transfer The proposal of the AC
W. Coast Inspn involves additional
expenditure on account of the extra cler

clerk required for the surcharge and also on account of the rent for the Sub circle M and Govt will have to be addressed. The DCs proposal does not involve extra expenditure. Govt will have to be addressed in this case also as the DCs proposal involves change in circle jurisdiction For orders. The question to be decided whether the Karkal taluk may remain in the Mangalore ⊙ but under independent charge of the AE or may be transferred to the Udipi ⊙ with the AE. If it continues in the Mangalore ⊙, though in independent charge grade II may have to exercise some supervision

The AE has not submitted report about the establishment of Cashew Dispy. The AE may be directed to submit a separate report.

Here is an opportunity for amalgamation of A.I. by way of a permanent A.I. for Mangalore and a permanent A.I. in Udipi. The Superintendent can do some touring 1-10-31

Govt may also be addressed for the formation of an additional range in the Karkal taluk and for the additional posts required for the Mangalore ⊙. They may be requested to treat the above as a Part II scheme for 1932-33. For orders
